

BICYCLE LICENSES

FREE Bike Helmet when you register your bike, while supplies last. Thank You St. Francis Hospital for the helmet donation.

Bicycles can be registered at the front desk of the Public Safety Building Monday thru Friday between 8am – 4pm. By registering your bicycle with Public Safety, your bicycle information will be kept on file. If your bicycle should be lost or stolen and then found, the license attached to your bicycle will direct who ever finds it to call the Escanaba Department of Public Safety. That way we can get your bicycle back to you.

To get a license, simply provide us with your contact information, serial number, the make and model, the size and color of your bike. Once that is done, you will receive a license sticker to place on your bike. This service is free of charge to all residents of the City of Escanaba.
